EXPLANATORY.

The CLERK'S COMBINATION ACCOUNT BOOK is designed as an adjunct to the Card System of keeping accounts with members and to provide a place for recording minutes of meetings and certain other memoranda that cannot well be accommodated on the Cards themselves. The special features include a record of "Moneys Advanced by Neighbors" and "Moneys Advanced to Neighbors," the former applying to cases where members pay assessments in advance of the one current at date of payment, and the latter to those where the Camp, from its Safety or Delinquent Fund, loans or advances assessments for members who have failed to pay as the law requires.

The pages provided for "Cash Received," "Clerk's Account with Banker," and "Benefit and General Fund Cash Account," will require no explanation, as the forms are practically the same as those heretofore in use. Each account serves as a check against the other, and *Managers should insist* that every form be put to its proper service. In this way, only, can a satisfactory audit of the books be made at the close of each semi-annual term.
